## **RUST BULLET SOLVENT IS SPECIALLY FORMULATED FOR THE EASY CLEANUP OR THINNING OF ALL RUST BULLET COATINGS.**

**Use Rust Bullet Solvent for cleanup, equipment preparation, and the thinning of Rust Bullet Coatings.**

### **Cleanup:**

Effectively clean equipment such as paint pots, lines, guns, brushes and rollers, as well as spills, drips and overspray from coating applications.

**Equipment Preparation:** Flushes, cleans and prepares spray equipment prior to application. Use to thoroughly flush and clean spray equipment between coats and after use to avoid possible damage to spray equipment.

### **Thinning:**

The approximate ratio is 3% to 5% by volume (i.e. 1.0 to 1.5 oz. solvent per quart of coating).
